COR. BROAD + JOHN STS.

HUNDREDS STRIKE AT ILION PLANTS OF REMINGTON CO.

Continued from Page 1

Arms Co. has been ordered by him with other labor saving schemes to follow.

PIECE WORK IS BANNED NOW BY REMINGTON CO.

"No more piece work" was the order going in effect at the Remington Arms & Ammunition company's plant this morning, throughout the sword and bayonet shops, which are the only ones now being operated by that company.

Much discussion over the new order which grants the men "a shorter day and increased wages" is being held in the shops today, for as stated by one of the employees on Saturday after he had received notification by letter that there would be no further piece work. "We all stand to lose between \$2 and \$3 per day on this order."

Heretofore polishers on swords and bayonets have been making between \$5.50 and \$6 per day, according to one authority. The new order grants them a flat rate of \$2.50 per hour, payable for ten hours, only eight of which are to be worked, or 40 cents per hour for the eight hours.

As outlined in the notice sent about the factory, Saturday the working hours are to be from 7 a. m. to noon and from 12:30 to 3:30 for the day shift, the same hours to be in effect on

Saturday with a free vacation to the men with pay during the heated term—48 hours during the week in summer and 48 hours during the week in winter for which they will uniformly receive 60 hours' pay—a total of \$19.20 per week. As some of the polishers claim that their weekly wage heretofore has been as high as \$30, there is much feeling against Major Walter G. Penfield and protests are likely to be lodged with the management at an early date.

Officials of the big arms plant today stated that the piece work proposition was only a temporary make-shift and would probably be renewed again in the future. They said that the installation of such large quantities of machinery had greatly upset the working force and that a discontinuance of the piece work-system had to be enforced until the machinery had all been put in.

The present schedule of hours will mean that the night shift beginning at an earlier hour will be free by midnight, though it is soon expected that the three-four system, working through all of the 24 hours, is soon to be installed.

MACHINISTS OF PAWTUCKET ASK EIGHT HOUR DAY

Pawtucket, R. I., Aug. 2—Demands for increased pay and shorter hours were made by machinists at the plant of Potter & Johnson today. The firm employs nearly 1000 men and is said to be engaged in making machines for the manufacture of shells and shipping the machines to France. The demands of the men, who seek an increase of five cents an hour and an eight hour day, were presented by a committee representing the local branch of the International Association

of Machinists. It is reported that similar demands will be made at other local plants.

Big Strike Is On In New York Plant of Garvin Company

New York, Aug. 2—According to officials of the International Association of Machinists between 700 and 800 employees of the Garvin Machine Company here did not go to work today. The activity of the union officials said, was in the interest of an 8-hour day and a 15 per cent. increase in wages. They added that on Saturday last, George K. Garvin, president of the company, had offered a 10 per cent. increase to the men.

It was said the union officials had gathered reports from the employees of the plant that the Garvin concern had obtained sub-contracts from the E. W. Bliss Company, of Brooklyn, for tools to be used in the manufacture of war machinery.

J. J. Keppler, vice-president of the machinists, left New York today for Plainfield, N. J., to confer with the machinists' representatives there.

STEAL OATS.

It was reported to the police this morning by the New Haven railroad that a car on Housatonic avenue had been broken into and 10 bushels of oats were stolen.

PROSTRATED BY HEAT

Helen Zopf, aged 18, of 482 Brooks street, was prostrated by the heat this morning while watching the circus parade, from Broad street and Fairfield avenue. Dr. J. P. Deery of the ambulance corps revived her.

THE PRETTIEST FACE and the most beautiful hands are often disguised by an unsightly wart. It can easily be removed in a few days without pain by using Cyrus Wart Remover. For sale only at The Cyrus Pharmacy, 418 Fairfield Ave.

TOMMY WILLIAMS HERE TO RENEW OLD FRIENDSHIPS

Father and the Boy Here for a Salt Water Swim After Inland Engagement.

Genial Tommy Williams, who for several seasons played character parts in the Poli stock company here, is stopping in the city for a few days. Mr. Williams has just closed after a season of 26 weeks with the Poli players at the Grand Opera house, Worcester. His son, Foster Williams played juvenile parts in the same company. They started last week in their automobile making stops for a day or two in cities along the road.

Two Hundred Clubs Here Are Subject To New License Law

The county commissioners stated today that they did not have the application forms printed and therefore were not yet ready to distribute applications to clubs which must take out liquor licenses under the new law which went into effect yesterday. They received inquiries this morning from six of the older clubs in the city regarding the new license.

In order to have a uniformity in the wording of the application forms, the county commissioners from every county in the state will hold a joint meeting next week to discuss the new law. The various provisions will be discussed and a general understanding reached by the commissioners so that there will be no conflict among the different counties.

There are about 200 clubs and organizations in this city but some of them will probably not take out licenses because they feel they cannot afford the \$100 fee. A \$200 bond is also required with the filing of the application and this may also be a financial handicap for some of the smaller organizations.

SOCIAL AND PERSONAL

H. L. Morris, of 516 Broad St., who is a deputy collector of customs at the local custom house has returned from a particularly enjoyable two weeks' vacation spent in the Adirondacks.

Mr. and Mrs. F. T. Langenhahn of 62 Benham avenue and Miss Alice Lyddy and John Grogan spent the week-end in Ridgefield, where they were the guests of relatives.

Miss Ruth Jameson of Stratford avenue, entertained a group of friends Saturday evening in honor of her guest, Miss Katherine Fitzgerald, of New York. Singing and dancing were the diversions which passed the evening all too quickly. Refreshments were served at a late hour. The guests were the Misses Fitzgerald, New York; Aenes Kearns, Elizabeth Stanton, Maude Stearns, Ruth O'Brien, Helen Cassidy and Ruth Jameson; Messrs. Thomas Kilborn, Frank Kennedy, Jacob Keating, John Myers, Eugene Koesena, James Hart, Paul Richter and Philip Lavery.

MARRIAGE LICENSES.

Today Marcus Breiner, 22, insurance agent, 202 Osborne street, was granted a license to wed Rosie Griette, 21, of 280 Osborne street, and to John Malesky, 21, electrician, Meriden, to wed Susie Slacie, 21, of 870 Hallett street.

William J. Bryan says he seeks no office but intends to remain in politics the rest of his life.

JITNEY DRIVERS AGAIN TO MEET FOR ORGANIZATION

A further meeting to complete the organization of the Bridgeport Chauffeurs' union will be held at midnight Wednesday in the Carpenters' union hall, in Broad street. The purpose of the men who desire to form the union is to regulate the traffic of jitneys, to prevent overcrowding and to regulate hours of labor, wages and other matters. When the union is established a business agent will be on the streets all the time to look after the members' interests and to see that the rules of the union are observed. He will also report to the authorities any overcrowding or violations of the city ordinance regarding jitneys.

John J. O'Neill, state organizer, and Robert Marshall, business agent of the Clerks' union, are organizing the Chauffeurs' union. When the union is organized some sort of a device will be adopted and fixed on the cars to indicate those driven by union chauffeurs. At the last meeting 72 applications were presented but many more have been received. It is estimated there are 300 chauffeurs driving jitney cars in Bridgeport.

STOCK MARKET

New York, Aug. 2—Opening—A fair degree of strength developed in the early trading today, but the accumulation of orders over the week-end was not large and the opening was the quietest of any Monday morning for several weeks. Most of the favorites on last week's advance were higher, although heaviness appeared in Crucible Steel, which fell back 1 3/4. Bethlehem Steel, Airbrake, Allis-Chalmers, Baldwin Locomotive, Can and Republic Steel gained about a point each. Coal Products four points.

Noon—There was a tendency to reduce speculative holdings of war

stocks which showed the effects of heavy realizing sales. These shares held within comparatively narrow lines and their steadiness under the circumstances indicated such a degree of absorptive capacity of the market as to encourage speculative ventures elsewhere. Buying shifted to better established issues and the market as a whole made a good showing throughout the morning. Oil Stocks, coppers and fertilizers were prominent in the movement, in which some of the railroads also figured. Bonds were irregular.

(T. L. Watson & Co.) in the steel industry, shows that 25 per cent. of the current production is due to war demands. This furnishes circumstantial evidence of the magnitude of the war orders which have stimulated speculation in certain special issues. But we have had a demonstration this week of the sensitiveness of stocks that are subjected to no violent manipulations and it is clear therefore that good margins should be exacted on all such purchases, for stop-loss orders are no protection where fluctuations are liable to be sudden and unexpected. The state of the money market, however, indicates that speculation, while intensive and excited, has not passed the safety point. Confidence is gradually spreading in all directions and the wonderful trade balance our overseas commerce is rolling up the strength of our financial position, and the brilliant crop outlook combine to sustain this confidence and lead to its expression in the markets.

HARBOR HAPPENINGS

The tug Skidmore came in with one boat this morning and took six others to New Haven.

The tug John Garrett took eight light boats to New York last night and the tug Gladwith brought in one boat for the City Ice & Coal Co.
